Tekwipes maintain cleaning performance

It is all about the roller!

Teknek Tekwipes are used to keep all cleaning rollers operating at peak efficiency.

The clean room grade wipe is also suitable for wiping down work surfaces leaving a clean sterile area.

- Removes more contamination
- Holds more liquid
- Stays wet longer
- Lint-free
- Leaves no residue
- Lasts longer

Wipe size:
200 x 200mm.

Wipe material:
Microfibre non woven 65gsm.

Liquid quantity:
3 times weight of dry wipes.

For use on all Teknek rollers

p panelclean **n** nanoclean[®] **g** gntclean **t** utfclean **nt** ntclean

Tekkie tip:
Combine Tekwipe with Teknek Roller Doctor to provide "deep" cleaning of your rollers.
